Process Description

- All TriageGo 3, 4 and 5 patients will continue to be triaged to the Annex. Pull until full 24/7 (32 patients max).
- From 10a-12a (weekday), 12p-7p (weekend) overflow TriageGo 2 patients can be evaluated on C-Side.
- From 7p-10a, at time of admission order, capacity permitting, patients will be moved out of A-side and Annex preferably to B or CPC before moving to C-side (excluding SDU/ICU patients who will remain on A).
- The 7a-7p and 7p-7a APP will remain on C-side and continue to cover ED Obs cases with a max of 12 patients.
- All B-side clinicians will continue to present to the Annex.

- If Annex is at capacity, space permitting, 4/5's can be triaged to Main ED
- Please be thoughtful of maintaining teams. B-side Residents should present to B-side Attendings
- The last C-side APP leaving should sign out to 7p-7a ED Obs APP. If the ED Obs APP is at cap of 12 patients, active patients should be signed out to the A -purple attending / resident team. Admitted patients should be signed out B attending / resident team.
