

YNHH (YSC and SRC) ED/MICU Co-management Workflow

Situation: MICU Patient boarded in SRC or YSC ED with admit order, but no identified bed
Typically 4+ hr stay expected, but not required

ED Attending pages MICU Admitting Attending with patient status
Y-Access Transfers accepted to MICU but sent to ED because of lack of availability should prompt an immediate call to the MICU Attending upon arrival for co-management. The CBM and Y-Access should notify the MICU Attending of this so that they can provide background information prior to arrival of the patient in the ED.

ED Staff move patient to rooms A01 or A02 (YSC), or ~~X~~ or ~~X~~(SRC) B08 or B09

MICU Admitting Attending arrives in ED, joined by assigned ED team (attending, resident/APP, RN) to assess patient

MICU Admitting Attending documents assessment and recommendations in Epic which include specifics of management

ED provider (Attending/Resident /APP) enters recommended MICU Admitting Attending orders into Epic.
ED provider initially fields ED RN questions regarding orders or patient status.

If Daytime (7am – 7pm)

If Nighttime (7pm – 7am)
